CPA means Cost-Per-Action. The word action here can mean anything from the generation of a lead such as an email address, a phone number, a credit card number, or even a sale.

Breaking into the CPA networks is hard work. Heck, most of them don't even want you to join. Over 90% of applicants get turned down, and some CPA networks are simple closed door, invite only, 'old boys clubs' that only allow insiders with connections to join.

How is anyone supposed to even get started working with Affiliate offers in CPA networks if they don't even have any hope of joining one in the first place?

Introducing Affiliate Jump by Mike Filsaime and Joe Holland.

Affiliate Jump was designed specifically to take out all of the hassle involved in getting started in CPA Networks by bypassing all of the initial troubles that are usually involved in getting in and instantly plugging you in to a multitude of affiliate networks and taking care of all site building and hosting.

Affiliate Jump draws affiliate offers from other affiliate networks so you don't have to sign up for a dozen different networks yourself and risk rejection like 90% of all hopeful CPA affiliates do. You are instantly approved for all of these offers upon joining Affiliate Jump and can start promoting your offers instantly. Not only does Affiliate Jump get you connected with tons of different offers from Affiliate Networks across the net, it also allows you to create and host sites in 20 seconds or less.
